

IMPORTANT INFORMATION

Register your fire indicator panel or lift emergency phone with nbn today

The **nbn**TM network is replacing most existing landline phone and internet networks across Australia.

To help identify services that may need assistance to move before existing networks are switched off, we strongly recommend that you register the full phone number of your lift emergency phone or fire indicator panel with **nbn**.

Supplying the phone number also helps identify premises that might be eligible for a deferred disconnection until 1 July 2017.

To register visit
nbn.com.au/fireandlift

or call **1800 687 626**
